WHAT YOU CAN EXPECT FROM US.....

OUR MISSION STATEMENT

Sunny Skies Nursery commits to provide a welcoming, caring environment for all, working with parents/carers and ensuring the highest quality, professional level of care and education to start every child's journey. British values are embedded in all we do.

Partnership

Parents and carers are children's first educators, and know them best of all. When we work together, the results will have a positive impact on children's development and learning. We will endeavour to achieve a successful partnership with you, based on mutual trust and respect, open communication, and a sharing of information, knowledge and expertise.

Facilities

Our Nursery is purpose built. We have three spacious, well equipped and innovatively resourced rooms. Our Baby Room boasts a tranquil rest area, a stimulating play/activity area, and separate rooms for nappy changing and milk storage and preparation. The rooms for our Toddlers and Pre School children are light and airy, separated by an archway, spanning the section which is transformed into our dining space at mealtimes.

All of the rooms lead out onto our Outdoor Play Area and Garden, especially designed for us to the highest specification. Meals are freshly prepared and cooked on site, using, fresh, local and seasonal produce wherever possible. Our menus are nutritionally balanced and we can cover all dietary requirements.

Care

We aim to provide the highest quality day care for your child, where individual needs are met in a happy, positive caring environment. Everyone is valued and respected, and expectations of children's behaviour are clear and developmentally appropriate. Each child will become part of a family group, whose leader will be their key worker, and who will foster a close relationship with both the child and their family. We share information with you daily

Safety and Security

The safety and security of your child is paramount, and to protect the children in our care, we have stringent security procedures in place. This includes CCTV, electronic security locks on all exterior doors, and rigorous monitoring procedures for staff, and adults collecting children or visiting our setting

staff

Our team is chosen carefully to ensure the very best attention to your child's needs. Each member holds recognised childcare qualifications, in line with statutory requirements. All have Enhanced CRB/DBS Disclosures. The children are cared for in the following ratios as required by law):

0-2 years 1 adult : 3 children

2-3 years 1 adult : 4 children

3-5 years 1 adult : 8 children

Curriculum

We closely follow the Statutory Framework for the Early Years Foundation Stage, and plan activities and learning experiences for your child carefully, considering their age and stage of development. We regularly observe and assess the children's progress so that we can tailor our planning to suit individual personalities and learning styles. Our curriculum is broad and balanced, and we aim to make each day challenging, exciting, stimulating and fun.

We work closely with our local schools' nurseries to ensure that our 3-5 year olds experience comparable topics and activities. When the children in our care move to a reception class, they will have had similar experiences, and therefore be equally as prepared as children who attend a school nursery. We liaise with all establishments wherever and whenever children move on from our care to ensure the smoothest transition.

Worried about your child's talking?

Through our **Happy Talk** programme we can work together, with advice and specialist support, to boost your child's communication skills. We have an Early Language Lead Practitioner on site and all of our team have enhanced training in encouraging young children's talking. The nursery has 2 awards for its work with children's early language.

Additional Needs

In our Nursery, we aim to provide an environment in which **all** children are supported to reach their full potential. If your child has additional needs, we will support your child and your family through our graduated approach. We will call upon professionals, undertake training, provide Individual Care/Education Plans and specialist resources. We will make any reasonable adjustments as would be necessary to fulfil those needs, to the very best of our ability.
